Shareholders in the above sub-funds are hereby informed of subsequent amendments by the Investment Company MainFirst (*Société d'Investissement à Capital Variable*) ("Fund"), which will take effect on **1 April 2022**:

1. Approach to adverse sustainability impacts

In the future, the Investment Managers will take into account the adverse sustainability impact for the sub-funds as defined in Article 7(1) of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019. To this end, the Investment Managers systematically integrate the main adverse impacts of investment decisions on sustainability factors into their ESG investment process. Different sustainability aspects are weighted in the sustainability assessment of investments depending on their relevance for the respective business model. The ability to systematically take into account the most important adverse sustainability impacts depends largely on the quality of the available data. Further details are available on the Investment Manager's website (www.mainfirst.com). Information on the adverse effects on sustainability factors is provided in the annual report.

The exception to this is the MainFirst – Total Return European Equity Fund sub-fund.

2. Clarification of the description of the performance fee for the following sub-funds:

- MainFirst - Absolut Return Multi Asset and
- MainFirst - Total Return European Equity Fund

The descriptions of the performance fee calculations are clarified by defining the reference value for MainFirst – Absolut Return Multi Asset (5% p.a.) and for MainFirst – Total Return European Equity Fund (10% p.a.). The current description included the term "benchmark", which was not sufficiently clear in this context. The clarification has no effect on the calculation logic or the amount of the current performance fees, so that there is no change for the shareholders with regard to the amount of the fees.
